EXPERIENCE

Software Engineer III-DevOps, Viewpoint — Portland OR

JAN 2022 - PRESENT

- Design and construct infrastructure and comprehensive CI/CD pipelines using image based methodology and Azure to facilitate the seamless delivery of multiple microservices for an integrated SAAS solution.
- Create and identify unique CLI tooling for the monitoring existing applications throughout environments using GoLang.
- Contribute to informed decision-making processes by providing expert guidance on information system options, risk assessment, and operational impact.
- Execute releases and script updates, while also exploring and implementing new third-party products to enhance system capabilities.
- Mentor software developers to attain operations skills and assume responsibilities within the domain.
- Monitor and maintain existing infrastructure in multiple production level environments.

Software Developer II-DevOps, Viewpoint — Portland OR

DEC 2019 - JAN 2022

- Lead DevOps engineer responsible for building infrastructure and integrating full CI/CD pipeline aimed at delivering new microservices for an integrated SAAS offering using GitHub actions and the Azure Portal.
- Sole DevOps engineer responsible to work with teams of product managers, developers and architects to transfer on-premise solutions to Cloud SAAS offerings using Azure Portal and Azure DevOps
- Responsible for monitoring cloud resources and implementing cost saving measures resulting in savings of over $250K annually.
- Implemented monitoring solutions for both service and infrastructure as well as adding improvements to our internal tooling for increased software performance and delivery.

Software Developer I, Viewpoint — Portland OR

APR 2018 - NOV 2019

- Worked with cross-disciplined teams to transfer existing functionality of an on-premise software solution to a cloud based SAAS offering.
- Front-End engineer tasked with creating Angular UI integration with .NET APIs for transfer of on-premise software solution to the Cloud.

TECHNOLOGIES/LANGUAGES

Azure Portal, Kubernetes, Terraform, Docker, GIT, GITHUB Actions, C#, .Net Core, SQL, CSS, YAML, HTML, Helm, New Relic, SQL Server, Agile, Firebase, Azure DevOps, GoLang

EDUCATION

The University of California, Davis
Davis, CA 2003-2006
Master of Science
Biomechanics

California State University, Chico
Chico, CA 1998-2003
B.S. Mechanical Engineering

CERTIFICATIONS

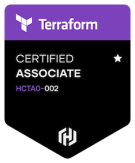
MICROSOFT CERTIFIED AZURE DEVELOPER ASSOCIATE

Microsoft
August 2019
H210-5692

CERTIFIED KUBERNETES ADMINISTRATOR

Linux Foundation
June 2021
LF-w50bpv1lpd

CERTIFIED TERRAFORM ASSOCIATE



HashiCorp
July 2022
HCTAO-002

Software Developer I, Onfulfillment — Portland, OR

MAR 2014 - MAR 2018

- Team Engineer tasked with development, refactoring, and maintenance of multi-tenant software platform for e-commerce using Microsoft Stack technology and tools integrated with API based SaaS software.
- Engineer responsible for 'uplift' of older software solution to 'Greenfield' platform by creating integrated project plans, identifying vulnerabilities and measuring improved response times using New Relic.

Junior Developer, PACIFICAPPS — Portland, OR

APR 2013 -MAR 2014

- Software Developer tasked with learning and improving existing multi-tenancy platform for e-commerce sales and products
- Technologies used: ASP.NET 4.5, C#, T-SQL, SSMS, Visual Studio

Biomechanical Research Engineer II, Legacy Biomechanics Research Lab — Portland, OR

Feb 2007 - Jan 2013

- Lead test and development engineer in NIH funded, multimillion-dollar research project aimed at solving bone fixation in healthy and osteoporotic patients.
- Manage successful implant creation, delivery and test methodology producing multiple US FDA approved implants (K101696, K123918, K130810).
- Create, develop, file and deliver test results of in-house designed implant resulting in 2 x US patents (US9314286 B2 and US8740955 B2).
- Recipient *2010 American Academy of Orthopaedic Surgeons Award of Excellence* for in-house implant design.
- Collaborate with multi-billion dollar orthopaedic implant manufacturer (Zimmer) to transition pilot data into industry disruptive technology resulting in revenue of greater than 5 million dollars annually (2013).
- Sole developer of custom software responsible for all in-house testing and implant development creating custom software using LabView 8.0
- Lead teams of research surgeons and students in the development of new and innovative orthopaedic implants and challenge the status-quo of an industry using proven and innovative principles and ideas.

Honorary Fellow, BG Unfallklinik— Murnau, Germany

June 2008 - Aug 2008

- Established protocols to govern the mechanical analysis of ovine tibiae in an international setting to measure the torsional strength and stiffness before and after healing determining the effectiveness of customized orthopaedic implants
- In charge of determining proper testing techniques for destruction testing of specimen using MTS software.Created and documented test protocols for future process automation, results collection and automation.

Quality Assurance Associate, Google — Mountain View, CA

Sept 2006 - Nov 2007

- Evaluated the accuracy of Google search engine results and web layout effectiveness for web advertising.
- Gained unique and valuable experience with the UI side of quality assurance.
- Communicated remotely through email with interdisciplinary web developers.

Professor Biomechanics, University of Portland — Portland, OR

Sept 2006 - Dec 2006

- Created and delivered biweekly lectures and laboratories about design principles and guidelines for orthopaedic implant development to twenty-five upper level mechanical engineering students.

PROJECTS

Chief Technology Officer, Sexcellent — San Francisco CA

APR 2020 - PRESENT

- Provide technical guidance to engineers, designers and Doctors to create an educational app for reproductive-education geared toward teens on iOS.

PATENTS, AWARDS, ACCOMPLISHMENTS

Patents:

- Bottlang M, Keith M, Doornink J, Koser AL; Bone Screw with Multiple Thread Profiles for Far Cortical Locking and Flexible Engagement to a Bone. Patent No's US9314286 B2 and US8740955 B2

Awards:

- *Scientific Exhibit Award of Excellence, American Academy of Orthopaedic Surgeons, AAOS 2010.* Bottlang M., **Doornink, J** , Fitzpatrick, DC, Marsh, JL, Augat, P, von Rechenberg, B, Lesser, M, Madey, SM Effects of Construct Stiffness on Healing of Fractures Stabilized With Locking Plates

Accomplishments: 4 Implants created by me and my team and approved by US Food and Drug Administration currently being used in national and international trauma centers.

- K101696 MOTIONLOC SCREW FOR NCB POLYAXIAL LOCKING PLATING SYSTEM (5.0 MM Titanium)
- K123918 MOTIONLOC SCREW FOR NCB POLYAXIAL LOCKING PLATING SYSTEM (4.0 MM Titanium)
- K130810 ZIMMER MOTIONLOC SCREW PERIARTICULAR LOCKING PLATE SYSTEM (4.5.MM SS)
- K130810 ZIMMER MOTIONLOC SCREW PERIARTICULAR LOCKING PLATE SYSTEM (3.5.MM SS)
