## PROFESSIONAL PROFILE

- Over 4 years of proven applied enterprise level software experience in using multiple technologies for consumer and business based experiences.
- Increased levels of responsibility and ownership in teams, project and strategies.
- Broad knowledge base and team player with experience developing in multiple time-sensitive environments.

## SKILLS AND PROFICIENCIES

---

### Languages

C#5.0, 6.0; CSS; HTML5; .NET 4.0, 4.5, 4.6; T-SQL; Selenium; JavaScript; TypeScript; Java; jQuery; Visual Basic

### Programs

Visual Studio 2008, 2010, 2013, 2015; SSMS 2012, 2016; Visual Studio Code; XCode; Xamarin; Photoshop; Office

### Tools

Agile Methodology; GitHub; PowerShell; Web Forms; Fiddler; MVVC; MVC; Authorize.NET; WordPress; LeanKit; node.js; Angular; LabView; Evernote; Slack; Bootstrap; Pluralsight

## RELEVANT APPLIED EXPERTISE AND EXPERIENCE

---

Business Process Design, Modeling and Implementation  
Technology, Assets, Service Roadmaps and Lifecycles  
Business Operations  
Continuous Improvement and Delivery

Asset Management and Control  
Demand, Solutions and Service Management  
Team Building and Management  
Innovation, Change and Release Management

## WORK EXPERIENCE

---

<b>04.2014 – CURRENT</b>	<b>OnFulfillment™</b>	Portland, OR
<b>Title:</b>	<b>Software Developer</b>	
<b>Teams:</b>	<u>Action</u> - Janice Kiser, Manager <u>Building</u> – Allen Newton, Senior Development Engineer	
<b>Summary:</b>	Software Engineer tasked with development, refactoring, improving architecture and maintenance of multi-tenant software platform for e-commerce sales through the use of Microsoft Stack technology and tools integrated with API based SaaS software.	
<b>Involvement:</b>	Engineer, analyze and provide technical solutions and assessment risks, gaps, defects and deficiencies throughout the SDLC on a multi-tenant e-commerce platform using C#5.0, C#6.0, Microsoft .Net 4.6, Visual Studio 2013-2015 and SSMS 2016, HTML5, Javascript, CSS, T-SQL, and SSMS 2016 and GIT for version control.  Integrate current software platform with new Greenfield platform using Angular 1.4, .NET 4.6.2, MVC architecture and Bootstrap technologies through use of API based SaaS.  Refactor existing C#5.0 code for better performance as measured through New Relic performance management.  Replace custom functionality with NuGet packages and maintain versioning using Visual Studio 2015 NuGet Package Manager.	

Provide defect tracking code and feature implementation of platform specific software to allow customer service representatives ability to provide real-time desk support service using classic.asp code, T-SQL, Web Forms and C#5.0 code in Visual Studio 2013 and SSMS 2016.

Work within an Agile team environment to develop web-based applications using Microsoft Stack software using LeanKit for project tracking and management and GIT for version control.

Supply code specific solutions for multiple stake-holders to determine scalable, manageable solutions that fit customer specific needs with communication using Slack, Microsoft Office 365 and Business Skype.

Create resolutions, develop integrated project plans and identify governance vulnerabilities within organization the organization, asses impact and present solutions to groups of 5-10 developers and stakeholders.

Assess new technologies and potential influence on current requirements and business rule implementations.

Monitor defects of current architecture through implementation and use of Error Logging Modules and Handlers (ELMAH) technology along with New Relic performance software.

Reverse engineer current features for use with updated technologies converting and expanding Visual Basic code to .Net 4.5 framework using C#5.0, Webforms and T-SQL.

Architect and support scalable in-house ECOM solutions integrated with Authorize.net and CyberSource API's to handle greater than 1200 orders per day with a revenue of over 18 million annually.

---

**04.2013 – 03.2014**

**PACIFICAPPS**

Portland, OR

**Title:** Junior Developer

**Teams:** Action – Mentor: John Kiser, Chief Technology Officer

**Summary:** Software Developer tasked with learning and improving existing multi-tenancy platform for e-commerce sales of products to tech companies based in the bay area using Microsoft Stack technology.

**Involvement:** Develop and maintain production level multi-tenant, e-commerce software platform in an Agile environment using ASP.NET 4.5 with Web Forms, C#5.0, T-SQL, SSMS 2012 and Visual Studio 2013.

Conversion of existing legacy webpages from Visual Basic code to .Net 4.5 framework using Visual Studio 2013, C#5.0, Webforms and T-SQL.

Integrate and support conversion functionality throughout customized software and integrating with Authorize.Net API.

Maintain and implement features in an administration portal implemented using Visual Basic code focused at enabling non-technical employee code maintenance for real-time desk support.

Communicate with customer service representatives for requirements gathering and creating business rules resulting in software feature implementations and maintenance using Microsoft Office 365 tools, Business Skype and GoTo Meeting for streamlined communication.

---

**02.2007 – 01.2013**

**Legacy Biomechanics Research Lab**

Portland, OR

**Title:** Biomechanical Research Engineer II

**Teams:** Research and Development Lab – Dr. Michael Bottlang, Director

**Summary:** Lead test and development engineer in NIH funded, multimillion-dollar research project aimed at solving bone fixation in healthy and osteoporotic patients.

**Involvement:** Managed successful implant creation, delivery and test methodology producing multiple US FDA approved implants (K101696, K123918, K130810).

Create, develop, file and deliver test results of in-house designed implant resulting in 2 x US patents (US9314286 B2 and US8740955 B2).

Recipient 2010 American Academy of Orthopaedic Surgeons Award of Excellence for in-house implant design.

Collaborate with multibillion-dollar orthopaedic implant manufacturer (Zimmer) to transition pilot data into industry disruptive technology resulting in revenue of greater than 5 million dollars annually (2013).

Sole developer of custom software responsible for all in-house testing and implant development creating custom software using LabView 8.0

Lead teams of research surgeons and students in the development of new and innovate orthopaedic implants and challenge the status-quo of an industry using proven and innovative principles and ideas as guidance.

<b>06.2008 – 08.2008</b>	<b>Berufsgenossenschaftliche Unfallklinik</b>	Murnau, Germany
<b>Title:</b>	<b>Honorary Fellow</b>	
<b>Teams:</b>	<u>Research and Development Team</u> – Dr. Peter Augat, Director	
<b>Summary:</b>	Established protocols to govern the mechanical analysis of ovine tibiae in an international setting to measure the torsional strength and stiffness before and after healing determining the effectiveness of customized orthopaedic implants	
<b>Involvement:</b>	In charge of determining proper testing techniques for destruction testing of specimen using MTS software. Created and documented test protocols for future process automation, results collection and automation.	

<b>09.2006 – 11.2007</b>	<b>Google</b>	Remote – Mountain View CA
<b>Title:</b>	<b>Quality Assurance Associate</b>	
<b>Teams:</b>	<u>Quality Assurance</u> – no direct supervisor	
<b>Summary:</b>	Evaluated the accuracy of Google search engine results and web layout effectiveness for web advertising.	
<b>Involvement:</b>	Gained unique and valuable experience with the UI side of quality assurance. Communicated remotely through email with interdisciplinary web developers.	

<b>09.2006 – 12.2006</b>	<b>University of Portland</b>	Portland, Oregon
<b>Title:</b>	<b>Professor Biomechanics</b>	
<b>Teams:</b>	<u>Mechanical Engineering Department</u>	
<b>Summary:</b>	Created and delivered biweekly lectures about design principles and guidelines for orthopaedic implant development to twenty-five upper level mechanical engineering students.	
<b>Involvement:</b>	In charge of laboratory project creation aimed at giving hands on experience implementing principles discussed during lecture. Solely responsible for grading, lab creation and content delivery.	

## ADDITIONAL SOFTWARE EXPERIENCE/INTEREST

Angular 2 thru 4 – Hobbyist/Interest  
 TypeScript – Hobbyist/Interest,  
 GIT – Professional/ Hobbyist  
 Xamarin – Hobbyist (Xamarin.Forms)!  
 Firebase – Hobbyist (For use with Apps)  
 Progressive Dynamic Web Apps – Hobbyist/Interest

Meetups Attended:  
 - Portland Area .NET Users Group (PADNUG)  
 - Portland Mobile .NET Developers Group (Xamarin)  
 - PDXnode

## PATENTS, AWARDS, ACCOMPLISHMENTS

---

**Patents:** Bottlang M, Keith M, **Doornink J**, Koser AL; Bone Screw with Multiple Thread Profiles for Far Cortical Locking and Flexible Engagement to a Bone. Patent No's US9314286 B2 and US8740955 B2

**Awards:** Scientific Exhibit Award of Excellence, American Academy of Orthopaedic Surgeons, AAOS 2010 Annual Meeting. Bottlang M., **Doornink, J**, Fitzpatrick, DC, Marsh, JL, Augat, P, von Rechenberg, B, Lesser, M, Madey, SM "Effects of Construct Stiffness on Healing of Fractures Stabilized With Locking Plates"

**Accomplishments:** 4 Implants created by me and my team and approved by US Food and Drug Administration currently being used in trauma centers nationally and internationally.

- K101696, MOTIONLOC SCREW FOR NCB POLYAXIAL LOCKING PLATING SYSTEM (5.0 MM Titanium)
- K123918, MOTIONLOC SCREW FOR NCB POLYAXIAL LOCKING PLATING SYSTEM (4.0 MM Titanium)
- K130810 ZIMMER MOTIONLOC SCREW PERIARTICULAR LOCKING PLATE SYSTEM (4.5.MM SS)
- K130810 ZIMMER MOTIONLOC SCREW PERIARTICULAR LOCKING PLATE SYSTEM (3.5.MM SS)

## EDUCATION

---

**Post-Graduate:** University of California, Davis  
Master's: Biomechanics: GPA: 3.8

**Undergraduate** California State University, Chico, 2003  
Bachelors of Science: Mechanical Engineering: GPA: 3.5
